Innovation Hub

Updated Proposal for GS1 Kenya
Post First Leadership Meeting — April 2026

Prepared by: Michael Munavu

Submitted to: GS1 Kenya CEO & Leadership Team

Date: April 2026

Executive Summary

Following the first leadership meeting, the Vumbuzi AI team has incorporated all feedback and decisions into this updated proposal. Key actions completed include finalising team structure, confirming branding direction, agreeing on office working arrangements, establishing contracts, and expanding the product roadmap based on sector opportunities identified.

This document presents Vumbuzi AI's refined vision, updated product pipeline, team, sales model, and immediate action items for CEO and Leadership Team approval.

1. Brand Identity

Brand Name: Vumbuzi AI

Domain: vumbuzi.ai — KES 35,200 for 2 years

Logo

Steve has already designed logo options for Vumbuzi AI. The CEO is requested to review and select the preferred logo from the options presented. A full Brand Guideline Document will be produced following selection.

2. Governance & Team

2.1 Reporting Structure

Project Lead: Michael Munavu

Reports To: GS1 Kenya CEO & Leadership Team

HR Oversight: Completed — headcount, contracts, office schedule confirmed

Technical Guidance: Joseph Oloo (Domain + Interviews)

Solutions & Sales Strategy: Nelson

2.2 Team Composition

Role	Count	Type	Status
Lead Developer / PM	1	Full-time	Michael Munavu — Confirmed
Full Stack Developer	3	Hire	Retainer + Commission per project
IT Sales Person	1	Hire	Retainer + Commission per project

2.3 Working Arrangements

Office presence and remote work policy confirmed by HR. Contracts drafted and under review by Leadership Team.

3. Product Roadmap

The product pipeline has been expanded following the leadership meeting. Products are grouped by phase.

Phase 1 — GS1 Core AI Tools

Product	Description	Target Users
Product Classifier	AI-powered GPC code suggestion & ERP integration	GS1 Members
Barcode Verifier	Mobile/web barcode quality & compliance analysis	GS1 Members
GS1 Academy (E-Learning)	LMS for GS1 standards training & certification	GS1 Members & Staff

Phase 2 — Sector ERP & Management Systems

Product	Target Sector	Notes
Construction ERP	Construction Companies	Project mgmt, scheduling, AI forecasting
Warehouse Management System	Logistics & Supply Chain	Benchmark with 5 pilot companies
Transport & Logistics System	Transport Operators	Fleet, route & delivery management
Medical Camp System	Healthcare / NGOs	Standalone build — patient flow & records
School Canteen System	Schools	Cashless canteen payments for students

Phase 3 — AI & SaaS Products

Product	Description	Revenue Model
Sector-Specific ERP Modules	Custom ERP for Retail, Pharma, Agri & more	Monthly subscription + licensing

4. Sales & Go-to-Market

Nelson leads Solutions & Sales Strategy. The approach is straightforward:

- Design and build websites and systems for GS1 members
- Market products out to member organisations across all sectors
- Engage willing companies to prototype systems before full rollout
- Weekly podcast — interviewing tech leaders across Kenya every week to grow social media presence and build brand authority

Pilot Strategy

All products will go through a pilot phase. We identify willing organisations, offer preferential pricing in exchange for feedback, then scale once validated.

5. Budget Overview

Item	Cost (KES)	Frequency	Status
Domain — vumbuzi.ai	35,200	2 Years	Awaiting approval
Developer Salaries (3)	TBD	Monthly	Pending LT guidance
IT Sales Staff	TBD	Monthly	Pending LT guidance
Cloud Hosting & Infrastructure	TBD	Monthly	To be scoped
Development Tools & Subscriptions	TBD	Monthly	To be scoped
Brand Guideline Design	TBD	Once-off	To be scoped

6. Decisions Required from Leadership

#	Decision	Owner
1	Approve domain purchase — KES 35,200 (vumbuzi.ai)	CEO / Finance
2	Confirm salary / stipend structure for developer and sales hires	HR / Finance
3	Endorse Brand Guideline Document scope and timeline	CEO
4	Approve Medical Camp System as a separate standalone build	LT
5	Confirm 5 pilot companies for Warehouse Management benchmarking	Nelson
6	Endorse go-to-market and sales strategy led by Nelson	CEO

7. Conclusion

Vumbuzi AI is ready to move from proposal to execution. With the HR foundations in place, a clear product roadmap across multiple high-value sectors, and a defined sales flow, the team is positioned to deliver meaningful results for GS1 Kenya and its members.

We request Leadership Team endorsement to proceed with domain registration, team onboarding, and the first sprint on the Product Classifier and GS1 Academy.

Submitted for Approval
